Membership Rights, Responsibilities, and Privileges

Membership is a critical element to the success of The Club at Westminster. The course needs and values members who conduct themselves in a friendly and respectful manner while on course property, respect the course by filling divots, driving in designated areas on the course, and wearing proper golfing attire. However, outside play is also paramount to the course's success. We need our members to appreciate this fact and accommodate, especially during season.

Tee Times

- Members can book one tee time (4 players or less) 8 days in advance of the actual date. The tee time may not conflict with the tee times reserved for the Westminster Groups who reserve blocks of tee times throughout the year.
- A member who does not show up for a booked tee time or does not cancel the tee time 24 hours before the scheduled date will be charged the non-member rate for each person that a member booked.
- In order to manage the workload more effectively in the Pro shop, we ask that members booking one tee time utilize the club's web site (<https://westminster-golf.com>) to book tee times. As members, you will be able to use the member portal.
- Many members play in groups which is defined as three or more tee times on a weekly basis. Each group will designate a group leader who will work with pro shop to determine the number of tee times that the group will need and establish time slots for the group. The pro shop will need to be aware of any non- members playing in the group so that they can be charged the appropriate rate. The group leader will be required to submit a list of players 48 hours prior to the scheduled play date. The club realizes that there can be changes in the 48-hour period prior to the scheduled tee times and expects the group leader to communicate those changes in a prompt manner. There will be no penalty for occasional last- minute cancelations. The club will work with the group leader to accommodate any underestimation of required tee times but not at the expense of fellow golfers who have scheduled tee times. If the group consistently overestimates required tee times, the club reserves the right to charge the group for the overestimation at the going non- member rate. The group will receive ample warning before any charges are incurred. The group leader will be responsible for coordinating the collection of the money and reimbursing the club.

Benefits

- Member will receive a 10 % discount on soft goods sold in the pro shop.
- Members will receive a 50 % discount on range balls and range memberships.
- Members will receive a GHIN Handicap through The Club at Westminster. Once a member doesn't renew, his/her GHIN is expired.

Other Items

- The club will allow a member to transfer his or her membership to another individual approved by the club. The transfer fee is \$400. With transferring, your member number and rights are given to whomever is taking over the membership.
- Westminster allows a maximum of 2 club golf cars per foursome. Members who have their own private golf may choose to take their cart or someone else's but will have to pair up. Private golf carts may be left near the clubhouse during the round of golf. We encourage all who do so to check with the golf staff.
- Handicap Registration is now required for any member who would like to use a handicap flag for their round/rounds of golf. You must submit a valid handicap parking permit from any Government agency. Once approved, permission to park near the blue stakes designated by the golf staff, will be granted. Please visit the Handicap Flag Policy for more information.

We appreciate your commitment to making The Club at Westminster an exciting and lovely place to be! If you have any questions, feel free to contact the management company or staff at any time.
